

[Print](#)**Schedules:**

Schedule selections are made in the spring of the preceding year. A list of available courses is distributed and informational meetings are held for students and parents during this time. The Master Schedule is created after all these steps have been considered. Individual schedule change requests will only be considered if there are unforeseen and extenuating circumstances. If a schedule must be changed, there will be a \$35.00 schedule change fee, unless it is determined that there is an error on our part.
